PROFESSIONAL SUMMARY

Detail-oriented and performance-driven Full Stack MERN Developer with hands-on experience in building responsive, scalable, and production-ready web applications. Proficient in **React.js**, **Node.js**, **Express.js**, and **MongoDB** with strong understanding of RESTful APIs, authentication systems (JWT), and database design. Skilled in developing secure backend services and modern UI/UX-driven frontend interfaces. Seeking an entry-level software development role to contribute technical expertise and problem-solving skills to dynamic teams.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Bootstrap, JavaScript (ES6+), React.js

Backend: Node.js, Express.js, MongoDB, RESTful APIs, JWT Authentication

Programming Languages: C, C++

Tools & Platforms: Git, GitHub, VS Code, Postman

Core Concepts: Data Structures, OOP, API Integration, Responsive Web Design, CRUD Operations

PROJECT EXPERIENCE

Vingo Food Delivery Website | MERN Stack

- Developed a full-stack food delivery platform with secure JWT-based authentication and user authorization.
- Designed and implemented RESTful APIs for user management, cart handling, and order processing.
- Integrated MongoDB with optimized schema design for efficient data retrieval.
- Built a fully responsive frontend using React.js for seamless user experience.

Modern Weather Application | React.js, OpenWeather API

- Developed a real-time weather forecasting application using external API integration.
- Implemented asynchronous data fetching using async/await with error handling.
- Designed responsive UI ensuring cross-device compatibility.

Food Recipe Finder Website | HTML, CSS, JavaScript

- Built a dynamic recipe search platform using public API integration.
- Implemented real-time search functionality and responsive layout design.

Sales Order Billing Website | JavaScript

- Developed a billing system with real-time price calculation and invoice generation logic.
- Implemented form validation and dynamic pricing algorithms.

Student Record Management System | C

- Created a console-based CRUD application with file handling for persistent data storage.

Bank Record Management System | C++

- Designed an OOP-based banking system implementing structured class architecture.
-

EDUCATION

Bachelor of Computer Applications (BCA) | 2025 | 65%

Dronacharya Government College, Gurugram University

Senior Secondary (12th) | 2021 | 83%

HBSE Board

SOFT SKILLS

Problem Solving | Quick Learner | Adaptability | Team Collaboration

PROFESSIONAL AVAILABILITY

- Available for Entry-Level MERN Stack Developer roles
- Open to On-site, Hybrid, and Remote opportunities
- Immediate Joining Available
